1.0 BRAND OVERVIEW

The Hong Kong University of Science and Technology (HKUST) and The Hong Kong University of Science and Technology (Guangzhou) (HKUST(GZ)) as a BRAND.
Established in 1991, The Hong Kong University of Science and Technology (HKUST) is an international research-focused university located in Clear Water Bay, Hong Kong. Over the years, HKUST has forged strong ties with global thought leaders to find collective solutions to emerging complex global problems. With the development of the Greater Bay Area moving forward rapidly, HKUST signed a tripartite agreement with the Guangzhou Municipal Government and Guangzhou University to jointly establish The Hong Kong University of Science and Technology (Guangzhou) (HKUST(GZ)) in the Nansha district of Guangzhou. The cross-disciplinary academic structure of HKUST(GZ), which is designed to complement the well-established disciplinary foundation at the Clear Water Bay campus, will bridge diverse knowledge from multiple and disparate fields for discovering novel solutions to global problems.

HKUST(GZ) embraces the brand vision, positioning, core values, and way of doing things of HKUST, while firmly adheres to the principle of “Unified HKUST, Complementary Campuses”.

HKUST Brand Guidelines
1.1 PRINCIPLE

A BRAND WE CAN ALL FEEL PROUD OF

Every time we communicate with anybody about HKUST and HKUST(GZ), it will help strengthen our brand impression and exert our influence. If we communicate inconsistently, it will dilute our brand image.

The aim of these brand guidelines is to be a tool for us to present HKUST and HKUST(GZ), that reflects our core values and builds an emotional connection with the audience. This brand style guide is intended to be simple and flexible and yet provide clear guidance about how our brand should appear and communicate.

Keeping a consistent look and uniform messaging throughout our communication will help strengthen the credibility and overall recognition of the University.
1.2 OUR CORE VALUES

· Excellence, Integrity, and Academic Freedom
· Global Vision and Local Commitment
· Can-do Spirit
· Inclusiveness, Diversity, and Respect
· 1-HKUST

MISSION

To advance learning and knowledge through teaching and research, particularly:
· in science, technology, engineering, management and business studies; and
· at the postgraduate level

To assist in the economic and social development of Hong Kong.

VISION

To be a leading university with significant international impact and strong local commitment.
1.3 BRAND POSITIONING

Positioning is not necessarily about creating something entirely new. It is about reconnecting who we are as a university and what we offer with our distinctive value. It guides and shapes our communications.
BRAND POSITIONING

BRAND PROPOSITION

CREATING VALUE THROUGH INNOVATION

Meaningful innovation is carried out with purpose and impact.

It creates value for the individuals and organizations they serve and our society at large.

This is the HKUST and HKUST(GZ) way of innovation.
LEADERSHIP HAS A NEW DEFINITION

The increasingly complex world requires leaders who have an amazingly analytical mind, sharp vision and most importantly conscience and accountability.

We are fully aware of and committed to grooming these new leaders who can make the right decisions for themselves and the people around them.

They are the new breed of innovators. And they do well and do good.

After all, leadership is more than managing a company, it is about managing one’s life.
1.4 BRAND ATTRIBUTES

The core attributes of the University reflect the character and characteristics that are shared by our students, staff, faculty and alumni.

**INNOVATIVE**
We drive ourselves to push the envelope. We are committed to applying our knowledge and skills in order to advance our society, so that the world can be a better place.

**DYNAMIC**
We are curious, energetic, agile and adaptive.

**CAN-DO SPIRIT**
We dare to take on challenge and we are willing to collaborate.

**RESPONSIBLE**
We are determined to succeed and at the same time, determined to serve.

**INTERNATIONAL**
We embrace the world and we are aiming for the highest global standards.
1.5 OUR STUDENTS

HKUST AND HKUST(GZ) ARE THE STAGES FOR THOSE WHO DARE TO PLAY THE LEADING ROLE.

We strive to become the place for those who are game-changers and are shaping a promising future for themselves as well as others. Their journey maybe more challenging, but it can be more satisfying and rewarding. The University will nurture the potential of students, help them grow and develop, enabling them to become “leaders” not “followers” in their own way.
Rules are meant to be broken ... for a good reason. Because the biggest hurdle to advancement is complacency.

To break the rules is not “rebel without a cause”. It is about having the vision, the courage and the discipline to set a new standard for the betterment of mankind.

This is indeed the true spirit of being innovative – it is about value creation by challenging the status quo.
“Curiosity doesn’t kill the cat”. Instead, curiosity opens our mind and drives us to chase our dreams.

Chasing big dreams requires big commitment and big actions.

This is particularly true in a world that is ever changing and full of complexity.

To seek a breakthrough, one needs to be able to intelligently navigate.
THE DARING PURSUER

Success doesn’t come without struggle, hard work, sacrifices and failures.

Endurance demands the highest level of skills and determination.

Only those with an uncompromising attitude and desire to pursue excellence attract like-minded people to join the cause.
THE UNSUNG HERO

Being goal-oriented is not necessarily about self-glorification.

The most remembered inventors are those who brought new ideas to the world and created positive impacts on our daily lives.

And the most respected leaders are those who can effectively lead with a strong sense of conscience and modesty.

These are the type of “new” leaders who will lead us to a better world.
“No man is an island” and we realize that people are becoming more inseparable. Not only is this physically, but mentally. We are more conscious of building a world-community to share resources and face challenges together.

With the latest technology and more importantly a global view, we are living in a borderless world where the sky is the limit.
1.6 BRAND EQUITY

Brand equity develops and grows as a result of different targeted audience experiences with the brand. The process typically involves that the targeted audience’s natural relationship with the brand unfolds following a predictable model:

- **Awareness**: The brand is introduced to its target audience often with marketing and advertising in a way that gets it noticed.
- **Recognition**: The target audience becomes familiar with the brand and recognize it anywhere.
- **Connection**: When the target audience has a good experience with the brand, it becomes the preferred choice.
- **Loyalty**: After a series of good brand experiences, users not only recommend it to others, but it becomes the only one they will go for in that category. They think so highly of it that any creation associated with the brand benefits from its positive glow.
Meaningful innovation is carried out with purpose and impact. It creates value for the individuals and organizations they serve and our society at large. This is the HKUST and HKUST(GZ) way of innovation.

To advance our society through dedication to world class research and academic excellence.

1.0 BRAND OVERVIEW

HKUST Brand Guidelines
2.0 THE VOICE

When writing for marketing communications and advertising, the voice of HKUST and HKUST(GZ), as conveyed in the language we use, reflects our brand identity.

Our tone and manner, choice of words, and way of presentation will all play a role in how our brand image is conceived by our audience. The way we write embodies the brand’s personality, expresses the values we stand for, and reflects the people that make up the brand—the things that drive them, their loves and hates, and what they want to share with the world.
2.1 HOW DO WE COMMUNICATE?

Our brand voice is the way we write and speak to our different audiences. Whether it is a brochure or a speech, a consistent tone of voice will help reinforce and strengthen our brand. It is a vital part of our brand identity and personality.
HOW DO WE COMMUNICATE?

01 Be PASSIONATE about our innovations and discoveries
Communicate with passion, and avoid clichés. Use **stimulating, energetic expressions** to exhibit our inventiveness and creativity for finding the best possible solutions to critical global issues. That passion and enthusiasm only comes through with active and vibrant language.

02 Be INTELLIGENT in conveying our findings
Use facts and statistics to illustrate your points, and use vivid narrative techniques to make the stories come to life. Articles are more interesting, relevant, and memorable to readers if they can relate to the characters and the story being told. Avoid unnecessary jargon and explain things in a **direct, straightforward manner**.

03 Be CONFIDENT in what we stand for
Write with confidence without being arrogant. Choose **bold, unambiguous language** to describe the actions we take to address the biggest problems in the world today. Describe our eagerness to challenge the status quo and put ideas to the test in the real world.

04 Be INSPIRING and ignite interest in joining our innovation journey
Tell a story in a **provocative way** to fuel curiosity and imagination about the social impact of our innovations. Aim to inspire and motivate our audience to join us in our quest for making life-changing breakthroughs.

05 Be FRIENDLY and show that we care about our world
We are the voice of togetherness and open-mindedness. Use **warm, people-oriented language** that connects with diverse audiences and engages the reader so that they can relate to our stories.
HOW DO WE COMMUNICATE?

01: to sound PASSIONATE

ADD SPARKLE AND PASSION WITH DETAILS
Make use of adjectives and details to bring your story alive.

EXAMPLE:

BEFORE
The Hong Kong University of Science and Technology (HKUST) hosted its annual Underwater Robot Competition and a record 300 students from 42 different primary and secondary schools signed up for the four-day event.

AFTER
Hundreds of young students recently pitted their mechanical creations against one another during the annual Underwater Robot Competition. Over the course of four days, the 300 students—a record for the event—competed against their peers, swapped building tips, and engaged with mentors from HKUST.

02: to sound INTELLIGENT

TELL A STORY WITH STATISTICS
Use data and statistics to enrich a point, not make the point.

EXAMPLE:

BEFORE
Last year, 90% of HKUST graduates were employed within a year, with employers citing quality X, Y, and Z as reasons for their hiring.

AFTER
...these are qualities that employers value highly, with 90% of HKUST graduates landing jobs within a year, making it one of the Asia’s most successful universities for employment.
HOW DO WE COMMUNICATE?

03: to sound CONFIDENT

**SAY IT LIKE YOU MEAN IT**

Describe our actions with decisiveness and limit the use of tentative words.

**EXAMPLE:**

**BEFORE**
We hope to become one of the best universities in the world.

**AFTER**
We aspire to be the world’s leading university.

04: to sound INSPIRING

**ADD IMPACT WITH RHETORICAL DEVICES**

Use rhetorical devices such as metaphor, simile, or repetition to create more persuasive content and direct your audience to the action that you want them to take. Add a quote to emphasize the point you try to make.

**EXAMPLE:**

**BEFORE**
Be a leader, not just a follower; take some risks, set long term goals, constantly broaden your horizons; and aim to leave your own mark in this world.

**AFTER**
The famous painter, Vincent Von Gogh, once said, “The fishermen know that the sea is dangerous and the storm terrible, but they have never found these dangers sufficient reason for remaining ashore.” Take some risks, be passionate about what you do, and let no adversities deter you in your adventures.

05: to sound FRIENDLY

**USE FIRST PERSON NARRATIVE AND POSITIVE WORDS**

Use first-person narrative and positive words to give your writing a more personal and human touch.

**EXAMPLE:**

**BEFORE**
Our sports center is closed for renovation until February 2019. We apologize for any inconvenience caused.

**AFTER**
We’re sorry that our center is undergoing a facelift. Please come back again in February 2019 for a brand new look!

UNIVERSITY LOGOMARK

The logomark of HKUST is in several ways symbolic of the institution. Lyrically it visualizes the golden head of wisdom over the open book of knowledge. Between the arms holding the book can be seen as a flask representing science. Alternatively, it is a transmission tower representing engineering and technology or communication and management. We can also see a sun radiating gold, that very traditional Chinese color, over an ocean glowing with the deep blue representative of Hong Kong. Supporting these emblems are the three Greek letters upsilon, psi, and tau, that is: transliterating as UST. The logomark entwines many meanings, as does the University itself.

PROHIBITED USE OF UNIVERSITY LOGOMARK ELEMENTS

Every part of the University logomark has its meaning and it should be respected like how we respect a person when we feature it. Hence the University logomark MUST be used in its entirety. It must NOT be featured in breaking parts and/or become part of another design elements. Do not crop, stretch, partially scale, shorten, abbreviate or create acronyms out of the University logomark.
UNIVERSITY LOGOMARK

MINIMUM SIZE

The University logomark should be used in its entirety with no alterations or additional elements added to it.

To make sure the University logomark is always clear and legible, there is a minimum size requirement.

The minimum size requirement is based on the height of the University logomark. When reproducing the University logomark in print, the minimum size of the symbol is 8mm.

For online use, the minimum size is 40 pixels at 72 dpi.

*The above logo is for reference only and is not a full-scale replica.
