1.0 BRAND OVERVIEW

The Hong Kong University of Science and Technology (HKUST) is established as a unique BRAND.

Established in 1991, HKUST is an international research-focused university located in Clear Water Bay, Hong Kong. Over the years, HKUST has forged strong ties with global thought leaders to find collective solutions to emerging complex global problems.
1.1 PRINCIPLE

A BRAND WE CAN ALL FEEL PROUD OF

Every time we communicate with anybody about HKUST, it will help strengthen our brand impression and exert our influence. If we communicate inconsistently, it will dilute our brand image.

These brand guidelines aim to be a tool for us to present HKUST that reflects our core values and builds an emotional connection with the audience. This brand style guide is intended to be straightforward and flexible and provide clear guidance about how our brand should appear and communicate.

Keeping a consistent look and uniform messaging throughout our communication will help strengthen the credibility and overall recognition of the University.
1.2 OUR CORE VALUES

· Excellence, Integrity, and Academic Freedom
· Global Vision and Local Commitment
· Can-do Spirit
· Inclusiveness, Diversity, and Respect
· 1-HKUST

MISSION
To advance learning and knowledge through teaching and research, particularly:
· in science, technology, engineering, management and business studies; and
· at the postgraduate level
To assist in the economic and social development of Hong Kong.

VISION
To be a leading university with significant international impact and strong local commitment.
1.3 BRAND POSITIONING

Positioning is not necessarily about creating something entirely new. It is about reconnecting who we are as a university and what we offer with our distinctive value. It guides and shapes our communications.
Meaningful innovation is carried out with purpose and impact.

It creates value for the individuals and organizations they serve and our society at large.

This is the HKUST way of innovation.
LEADERSHIP HAS A NEW DEFINITION

The increasingly complex world requires leaders with an amazingly analytical mind, sharp vision, the ability to motivate and empower others to strive for the best and to the limit, and most importantly, conscience and accountability.

We are fully aware of and committed to grooming these new leaders who can make the right decisions for themselves and those around them.

They are the new breed of innovators who do well and do good.

After all, leadership is more than managing a company; it is about inspiring others to embark on a journey that will lead us to a brighter future.
1.4 BRAND ATTRIBUTES

The core attributes of the University reflect the character and characteristics that are shared by our students, staff, faculty and alumni.

**INNOVATIVE**
We drive ourselves to push the envelope. We are committed to applying our knowledge and skills in order to advance our society, so that the world can be a better place.

**DYNAMIC**
We are curious, energetic, agile, and adaptive.

**CAN-DO SPIRIT**
We dare to take on challenges, and are willing to collaborate.

**RESPONSIBLE**
We are determined to succeed and, at the same time, determined to serve.

**INTERNATIONAL**
We embrace the world and aim for the highest global standards.
1.5 OUR PEOPLE

HKUST IS THE STAGE FOR THOSE WHO DARE TO LEAD.

We strive to become the place for those who are game-changers and are shaping a promising future for themselves as well as others. Their journey may be more challenging, but it can be more satisfying and rewarding. The University provides a fertile ground for talents to grow and flourish, enabling them to step up as leaders and pave the way for many generations to come.
THE NON-CONFORMIST

Rules are meant to be broken ... for a good reason. Because the biggest hurdle to advancement is complacency.

To break the rules is not “rebel without a cause”. It is about having the vision, the courage, and the discipline to set a new standard for the betterment of mankind.

This is indeed the true spirit of being innovative – it is about value creation by challenging the status quo.
“Curiosity doesn’t kill the cat”. Instead, curiosity opens our mind and drives us to chase our dreams.

Chasing big dreams requires big commitment and big actions.

This is particularly true in a world that is ever changing and full of complexity.

To seek a breakthrough, one needs to be able to intelligently navigate.
THE DARING PURSUER

Success doesn’t come without struggle, hard work, sacrifices, and failures.

Endurance demands the highest level of skills and determination.

Only those with an uncompromising attitude and desire to pursue excellence attract like-minded people to join the cause.
THE UNSUNG HERO

Being goal-oriented is not necessarily about self-glorification.

The most remembered inventors are those who brought new ideas to the world and created positive impacts on our daily lives.

And the most respected leaders are those who can effectively lead with a strong sense of conscience and modesty.

These are the type of “new” leaders who will lead us to a better world.
“No man is an island” and we realize that people are becoming more inseparable. Not only is this physically, but mentally. We are more conscious of building a world-community to share resources and face challenges together.

With the latest technology and, more importantly, a global view, we live in a borderless world where the sky is the limit.
1.6 BRAND EQUITY

Brand equity develops and grows as a result of different targeted audience experiences with the brand. The process typically involves that the targeted audience’s natural relationship with the brand unfolds following a predictable model:

- **AWARENESS** The brand is introduced to its target audience often with marketing and advertising in a way that gets it noticed.
- **RECOGNITION** The target audience becomes familiar with the brand and recognize it anywhere.
- **CONNECTION** When the target audience has a good experience with the brand, it becomes the preferred choice.
- **LOYALTY** After a series of good brand experiences, users not only recommend it to others, but it becomes the only one they will go for in that category. They think so highly of it that any creation associated with the brand benefits from its positive glow.
Meaningful innovation is carried out with purpose and impact. It creates value for the individuals and organizations they serve and our society at large.

This is the HKUST way of innovation.

To advance our society through dedication to world class research and academic excellence.

Validated by research with internal & external stakeholders
2.0 THE VOICE

When writing for marketing communications and advertising, the voice of HKUST, as conveyed in the language we use, reflects our brand identity.

Our tone and manner, choice of words, and way of presentation will all play a role in how our brand image is conceived by our audience. The way we write embodies the brand’s personality, expresses the values we stand for, and reflects the people that make up the brand—the things that drive them, their loves and hates, and what they want to share with the world.
2.1 HOW DO WE COMMUNICATE?

Our brand voice is the way we write and speak to our different audiences.

Whether it is a brochure or a speech, a consistent tone of voice will help reinforce and strengthen our brand. It is a vital part of our brand identity and personality.
HOW DO WE COMMUNICATE?

01 Be PASSIONATE about our innovations and discoveries
Communicate with passion, and avoid clichés. Use stimulating, energetic expressions to exhibit our inventiveness and creativity for finding the best possible solutions to critical global issues. That passion and enthusiasm only comes through with active and vibrant language.

02 Be INTELLIGENT in conveying our findings
Use facts and statistics to illustrate our points, and use vivid narrative techniques to make the stories come to life. Articles are more interesting, relevant, and memorable to readers if they can relate to the characters and the story being told. Avoid unnecessary jargon and explain things in a direct, straightforward manner.

03 Be CONFIDENT in what we stand for
Write with confidence without being arrogant. Choose bold, unambiguous language to describe the actions we take to address the biggest problems in the world today. Describe our eagerness to challenge the status quo and put ideas to the test in the real world.

04 Be INSPIRING and ignite interest in joining our innovation journey
Tell a story in a provocative way to fuel curiosity and imagination about the social impact of our innovations. Aim to inspire and motivate our audience to join us in our quest for making life-changing breakthroughs.

05 Be FRIENDLY and show that we care about our world
We are the voice of togetherness and open-mindedness. Use warm, people-oriented language that connects with diverse audiences and engages the reader so that they can relate to our stories.
HOW DO WE COMMUNICATE?

01: to sound PASSIONATE

ADD SPARKLE AND PASSION WITH DETAILS
Make use of adjectives and details to bring the story alive.

EXAMPLE:

BEFORE
The Hong Kong University of Science and Technology (HKUST) hosted its annual Underwater Robot Competition and a record 300 students from 42 different primary and secondary schools signed up for the four-day event.

AFTER
Hundreds of young students recently pitted their mechanical creations against one another during the annual Underwater Robot Competition. Over the course of four days, the 300 students—a record for the event—competed against their peers, swapped building tips, and engaged with mentors from HKUST.

02: to sound INTELLIGENT

TELL A STORY WITH STATISTICS
Use data and statistics to enrich a point, not make the point.

EXAMPLE:

BEFORE
Last year, 90% of HKUST graduates were employed within a year, with employers citing quality X, Y, and Z as reasons for their hiring.

AFTER
...these are qualities that employers value highly, with 90% of HKUST graduates landing jobs within a year, making it one of the Asia’s most successful universities for employment.
HOW DO WE COMMUNICATE?

03: to sound CONFIDENT

SAY IT LIKE WE MEAN IT

Describe our actions with decisiveness and limit the use of tentative words.

EXAMPLE:

BEFORE
We hope to become one of the best universities in the world.

AFTER
We aspire to be the world’s leading university.

04: to sound INSPIRING

ADD IMPACT WITH RHETORICAL DEVICES

Use rhetorical devices such as metaphor, simile, or repetition to create more persuasive content and direct our audience to the action that we want them to take. Add a quote to emphasize the point we try to make.

EXAMPLE:

BEFORE
Be a leader, not just a follower; take some risks, set long term goals, constantly broaden your horizons; and aim to leave your own mark in this world.

AFTER
The famous painter, Vincent Von Gogh, once said, “The fishermen know that the sea is dangerous and the storm terrible, but they have never found these dangers sufficient reason for remaining ashore.” Take some risks, be passionate about what you do, and let no adversities deter you in your adventures.

05: to sound FRIENDLY

USE FIRST PERSON NARRATIVE AND POSITIVE WORDS

Use first-person narrative and positive words to give our writing a more personal and human touch.

EXAMPLE:

BEFORE
Our sports center is closed for renovation until February 2019. We apologize for any inconvenience caused.

AFTER
We’re sorry that our center is undergoing a facelift. Please come back again in February 2019 for a brand new look!

3.3 UNIVERSITY LOGOMARK

The University logomark may be used in internal communications, online user interfaces with space constraints, or souvenir designs*.

The following regulations apply to the usage of HKUST brand.

*If the University logomark is used for souvenir design, the full name of the University should also be visible on the product.
The logomark of HKUST is in several ways symbolic of the institution. Lyrically it visualizes the golden head of wisdom over the open book of knowledge. Between the arms holding the book can be seen as a flask representing science. Alternatively, it is a transmission tower representing engineering and technology or communication and management. We can also see a sun radiating gold, that very traditional Chinese color, over an ocean glowing with the deep blue representative of Hong Kong. Supporting these emblems are the three Greek letters upsilon, psi, and tau, that is: transliterating as UST. The logomark entwines many meanings, as does the University itself.

Every part of the University logomark has its meaning, and we should respect it in the same way we respect a person when we feature it. Hence the University logomark MUST be used in its entirety. It must NOT be featured in broken parts and/or become part of another design elements. Do not crop, stretch, partially scale, shorten, abbreviate, or create acronyms out of the University logomark.
UNIVERSITY LOGOMARK

CLEAR SPACE

The University logomark should be used in its entirety with no alterations or additional elements added to it.

The University logomark should be displayed with the minimum clear space. No other elements should be placed within the space, so as to ensure the University logomark’s visibility. This rule applies to all versions of the University logomarks.

MINIMUM SIZE

To make sure the University logomark is always clear and legible, there is a minimum size requirement.

The minimum size requirement is based on the height of the University logomark. When reproducing the University logomark in print, the minimum size of the symbol is 8mm.

For online use, the minimum size is 40 pixels at 72 dpi.

*The above logo is for reference only and is not a full-scale replica.
3.4 PROHIBITED USE OF UNIVERSITY LOGO

The following regulations apply to the usage of HKUST brand.

For academic related partnership, the standard University logo should be featured on the left with an equal share of space (referring to the height of both logos) with the partner’s logo. When using the University logotype (see section 3.1.6 University Logotype) in the design of partnership logo, it should be used in its entirety. The logo, typeface, or name of the partners should not exceed the height of the University logo. Please see examples as shown for the size, spacing, and minimum clear space guidelines.

**EXAMPLES**

The above two types of examples are restricted to logos of University Constituent Units, academic-related partnerships, subsidiaries, and collaborative campus(es). For collaboration with non-affiliated units, which required featuring both their logos and the University logo in the same context, the University logo should be the same height as the non-affiliated units’ logo(s). The two logos could be placed side by side, or preferably the University logo could be placed on the top left corner of the page or design layout.
4.3 SUBSIDIARIES AND COLLABORATIVE CAMPUS(ES)

POWERPOINT

• The PowerPoint system is flexible enough to create different unique impressions.

• The recommended document size is 16:9.

• When adding images to PowerPoint, only use good quality images that are not pixelated or too small to display.

• It is better to use clear and concise text with a strong supporting image than to make a slide look cluttered with unnecessary imagery.

Consider the audience and environment when choosing slide design. For example, dark backgrounds may work well for presentations, but are not ideal for printing.
These guidelines aim to provide guidance to the University and Constituent Units when they develop an official mobile application on iOS platform and/or Android platform under the name of University.

2. **Keep it simple**
   Adopt a minimalistic approach when it comes to user interface design. Strip off any unnecessary elements.

3. **Large controls and large texts**
   Ensure the controls are large enough for thumbs to easily tap and scroll. Bigger font size also makes it easier to read and understand.

8. **Accessibility**
   Consider making your application more accessible to users with disabilities (e.g. poor vision, hearing, manual dexterity, and other impairments). Refer to the Mobile Accessibility Guidelines at W3C.

9. **User Acceptance Test (UAT)**
   Before publicizing the application, make sure to conduct user acceptance tests (UATs). Reflect on the feedback to fix bugs and improve on the application.
